
SUNARA ENERGY FZE

ENERGY & PETROCHEMICAL TRADING · UAE

Powering Trade. Energising Growth.

Company profile — refined petroleum products, petrochemicals, LPG, storage & logistics and renewables, from the UAE to the Middle East, Africa and Asia.

WHO WE ARE

A UAE-based energy trading house with a global outlook

Headquartered in the United Arab Emirates — at the heart of the Gulf's oil storage, blending and export infrastructure — Sunara Energy FZE bridges Gulf refiners and producers with growing industrial demand in Africa, South Asia and the wider Middle East.

We are a physical trader, not a broker. We take title, manage the voyage and deliver on-spec cargoes with accurate documentation. Today we trade refined petroleum products, petrochemicals, polymers and LPG, supported by storage and logistics from the UAE's east and west coasts. Our customers are refiners, distributors, utilities and manufacturers across the GCC, East and West Africa, and the Indian subcontinent.

Target Regions	Business Lines	Trading & Ops Desk	Compliance-Led Trade

Our Mission

To deliver energy and petrochemical products reliably, transparently and competitively to the industries that build growing economies — while meeting the highest standards of compliance and counterparty care.

Our Vision

To be the trading partner of choice between Gulf supply and emerging-market demand — and a credible participant in the region's transition to lower-carbon energy.

What we hold ourselves to

Integrity

We say what we will do and do what we say — on price, quality and timing.

Compliance

KYC, sanctions and AML checks on every counterparty, every time.

Partnership

Relationships measured in years and repeat cargoes, not single trades.

Excellence

Precision in documentation, operations and risk management.

WHAT WE DO

Five business lines, one trading desk

Together they cover the physical energy supply chain — from refinery gate to end user. We source from Gulf, Indian and Asian refiners and deliver on FOB, CFR or CIF terms.

Refined Petroleum Products

Gasoil (10 ppm & 500 ppm), jet fuel, gasoline, fuel oil, bitumen and base oils for industrial, marine and power customers.

Petrochemicals & Polymers

Aromatics, solvents, methanol, MEG and polymer grades (PE, PP, PVC) for packaging, construction, coatings and manufacturing.

LPG & Gas

Propane, butane and mixed LPG for distributors, industrial users and utilities across East Africa and South Asia.

Storage & Logistics

Tank storage, blending, vessel chartering and inland distribution via Hamriyah, Fujairah and partner terminals.

Renewables & Energy Transition

Solar equipment supply, biofuel blending components and carbon-conscious sourcing for customers decarbonising their supply chains.

Why counterparties work with us

Integrity

Transparent pricing, clean paperwork, no surprises.

Reach

Starting with selected pilot markets across MEA & Asia.

Speed

Indications within hours, firm offers within a day.

Reliability

On-spec cargoes, on time, with complete shipping documents.

PRODUCTS & SERVICES

Oil products and petrochemicals

Refined Petroleum Products

Our core business. We buy from Gulf, Indian and Far East refiners on term and spot basis, and deliver to distributors, utilities, marine operators and industrial users.

Target markets: GCC, East & West Africa, Pakistan, India, Sri Lanka, Bangladesh

Terms: FOB Hamriyah / Fujairah, CFR and CIF destination; cargo sizes 5,000–40,000 MT

- Gasoil / diesel — 10 ppm, 50 ppm and 500 ppm sulphur grades
- Jet A-1 and kerosene
- Gasoline — 91, 92, 95 RON
- Fuel oil — 180 cst, 380 cst, VLSFO
- Bitumen — 60/70, 80/100, PG grades (bulk and drums)
- Base oils — Group I, II, III and process oils
- Naphtha and condensate

Petrochemicals & Polymers

A growing portfolio of chemicals, solvents and polymer resins sourced from Gulf and Asian producers for manufacturers, converters and formulators.

Target markets: GCC, Egypt, Kenya, Tanzania, Nigeria, India, Bangladesh

Terms: Containers (FCL) and bulk; CFR / CIF

- Aromatics — benzene, toluene, mixed xylene
- Solvents — MEG, DEG, methanol, IPA, acetone
- Polyethylene — LLDPE, LDPE, HDPE film and injection grades
- Polypropylene — homo and copolymer
- PVC resin and plasticisers
- Sulphur and urea (industrial grades)

PRODUCTS & SERVICES

Gas, infrastructure and energy transition

LPG & Gas

Propane, butane and mixed LPG for cylinder distributors, autogas, industrial heating and power — delivered by pressurised and semi-refrigerated carriers.

Target markets: Kenya, Tanzania, Mozambique, Pakistan, Sri Lanka, Bangladesh

Terms: FOB Gulf ports, CFR destination; term contracts available

- Propane (commercial grade)
- Butane (commercial grade)
- Mixed LPG — 30:70, 50:50, 70:30 blends
- Small-parcel supply (1,000–5,000 MT) for East African terminals
- Cylinder and bulk distribution partnerships

Storage & Logistics

Physical trading only works with physical infrastructure. We use tank storage in Hamriyah and Fujairah to blend, break bulk and hold inventory close to our customers' shipping lanes.

Target markets: UAE east and west coast, Oman, Saudi Arabia

Terms: Storage and throughput agreements; per-MT handling

- Tank storage and blending — gasoil, fuel oil, base oils
- Vessel chartering — clean and dirty product tankers, LPG carriers
- Independent inspection coordination — SGS, Intertek, Bureau Veritas
- Drumming, flexitank and ISO-tank packaging for smaller lots
- Inland trucking within the UAE and to Oman
- Customs, free-zone and export documentation

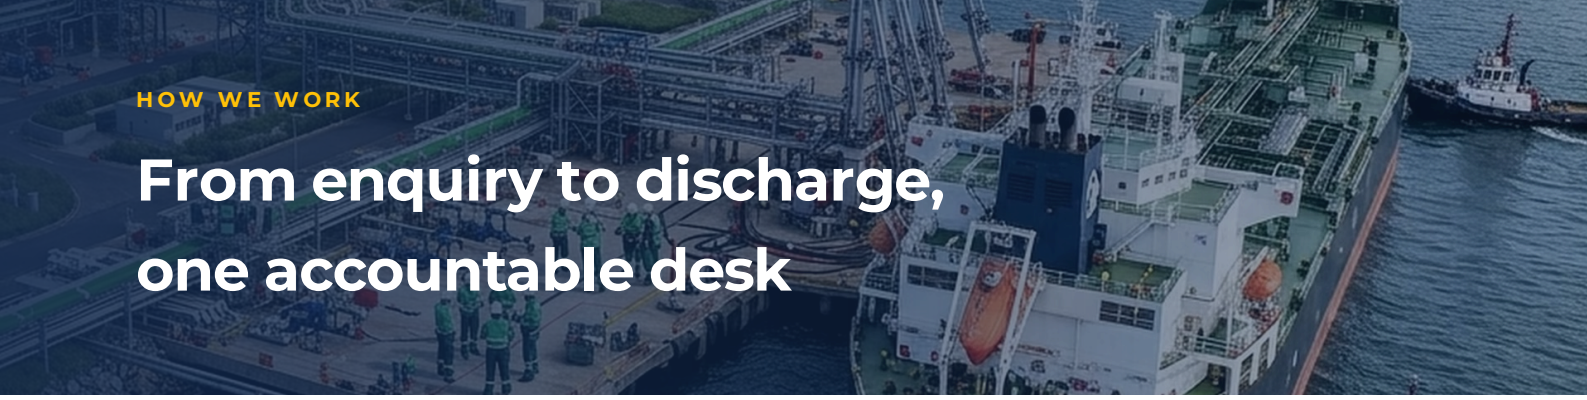
Renewables & Energy Transition

The sun in our logo is not decoration. We help customers reduce the carbon intensity of their energy supply while keeping the lights on.

Target markets: GCC, East Africa, South Asia

Terms: Project supply on CIF / DAP; EPC partner introductions

- Solar PV modules, inverters and mounting systems for commercial and off-grid projects
- Biodiesel (FAME) and blending components
- HVO and lower-sulphur fuel alternatives on request
- Carbon-conscious sourcing — emissions data on cargoes where available
- Advisory on fuel-switching for industrial and power customers



HOW WE WORK

From enquiry to discharge, one accountable desk

Our trading and operations teams sit together, so every cargo is priced and shipped by people who talk to each other daily.

1 **Strategic Sourcing**
Term and spot supply from Gulf, Indian and Far East refiners and producers.

2 **Risk Management**
Price, quality and counterparty risk managed on every cargo.

3 **Logistics Excellence**
Chartering, inspection (SGS / Intertek), storage and last-mile delivery.

4 **Reliable Delivery**
On-spec, on-time cargoes with complete documents at discharge.

Industries served

Fuelling the sectors that build economies.

- Power Generation
- Transport & Fleet
- Marine & Bunkering
- Construction & Roads
- Packaging & Plastics
- Manufacturing
- Mining
- Agriculture
- Paints & Coatings
- LPG Distribution
- Aviation
- Solar & Renewables

Target markets

United Arab Emirates · Oman · Saudi Arabia · Egypt · Kenya · Tanzania · Mozambique · Nigeria · India · Pakistan · Sri Lanka · Bangladesh

GOVERNANCE & COMPLIANCE

Trade you can rely on

We run our compliance programme to the standard expected of a regulated commodity trader. Every counterparty, every vessel and every cargo goes through the same checks — no exceptions.

Counterparty due diligence

Full KYC on suppliers, buyers, agents and vessels before first trade.

Sanctions & AML screening

OFAC, EU, UN and UAE lists screened at onboarding and at every shipment.

Vessel vetting

Age, flag, ownership, AIS history and P&I cover checked before nomination.

Documentary discipline

Shipping documents checked against the contract before every cargo.

Quality & quantity

Independent inspection (SGS, Intertek, Bureau Veritas) at load and discharge.

Licensing

Hamriyah Free Zone Authority licence for trading in petroleum and petrochemical products.

Company information

Legal name: SUNARA ENERGY FZE
Jurisdiction: Hamriyah Free Zone, Sharjah, UAE
Activity: Trading in petroleum and petrochemical products
